13. Which character from old fairy tales ate Grandma?

## Maths:

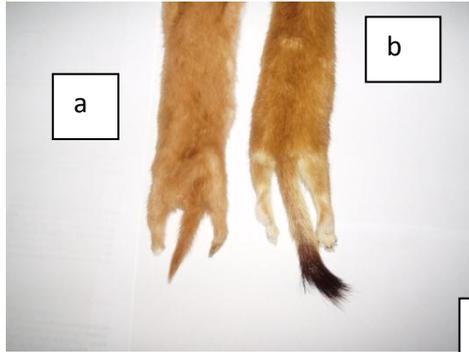

1. It takes 5 trees 100 years to soak up a year's worth of CO<sub>2</sub> from just ONE car. If you drive your car for 10 years before scrapping it, how long does it take the 5 trees to soak up your CO<sub>2</sub>?
2. An oak tree can live for 800 years. During its life, it can provide all the oxygen for 2 people for their whole lives. If a generation is measured as 25 years, a) how many generations will benefit? b) how many people will benefit?
3. The *average* weight of badgers in Britain is between 7.5 and 9.5 kg for females and 8.5 and 10.5 kg for males. (They are heaviest by late autumn and lightest by late spring.) What is the range of weights for badgers?
4. Britain's heaviest badger was a Durham lad! He weighed in at 27.7kg. How much heavier was he than the *highest average* weight for a boar?
5. A low-energy light bulb costs around 70% less to run, and lasts 20 times longer than a tungsten bulb. If my tungsten bulb costs me £14 per year to run, how much would a low-energy bulb cost me?
6. A badger can run at up to 30km per hour, (over short distances.) If a badger sprints for one minute, how far will he have gone?
7. By the age of 16, every child will generate 88 tons of CO<sub>2</sub>. (That's more than 60,000,000 tons for all of today's 16 year-olds.) If a comprehensive school has 150 16 year-olds, how much CO<sub>2</sub> will they have generated?
8. Life in the wild is tough. About  $\frac{1}{2}$  of all badgers die within their first year. Only around 35 out of every hundred live to the age of 2. What percentage lives longer?
9. Badgers love to eat earthworms. (Almost 50% of their diet is worms.) The average earthworm weighs around 5 g. How much food, in kg., would a badger eat if it caught 200 worms in one night?
10. The current badger population is estimated at *around* 250,000. [http://en.wikipedia.org/wiki/Eurasian\\_badger](http://en.wikipedia.org/wiki/Eurasian_badger)  
If there are 25,000 in Scotland and 35,000 in Wales, how many are there in England?

**Science:** Which taxonomic name fits each British mammal?

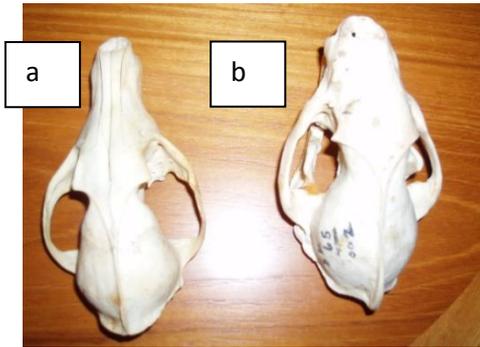

1. House mouse
2. Red fox
3. European badger
4. Otter
5. Red squirrel

*Sciurus vulgaris*   *Mus musculus*   *Vulpes vulpes*  
*Meles meles*   *Lutra lutra*

6. These tails belong to a stoat and a weasel. Which is which?
7. The two skulls belong to a fox and a badger. Which is which?

Tails: a)            b)  
 Skulls: a)        b)

8. Name these wild flowers.

9. Name these wildflowers

10. Name these wildflowers

**Geography:**

1. Bucky Badger is the mascot for the American University sports team, ..... Badgers.

These local badger groups are registered at the addresses in the box. Can you match them up?

2. South Yorkshire
3. Lancashire
4. Wirral and Cheshire
5. Herefordshire
6. Gloucestershire
7. Suffolk
8. West Surrey
9. East Kent
10. Cornwall

St Ives	Sheffield	Warrington
Lancaster	Ashford	Ross-on-Wye
Stroud	Guildford	Ipswich

**General Knowledge:**

1. A badger's home is called a .....
2. The word 'badger' probably comes from the word bêcheur (digger). From which language does it come?
