

## Badgery Graphic Design

Why not have a go at some badgery graphic design? It's easy! Just draw some squares.  
You might like to try the one above, showing an impression of a badger's face.

## REPEAT PATTERNS

Look at how these repeat patterns work. Try it yourself and see what sort of repeat patterns you can come up with. If you colour them with each patch in each square the same colour, they'll look fantastic! But beware! It can be addictive!
